Advanced Planning Briefing

programs

- **FLITE: The Financial and Logistics Integrated Technology Enterprise program supports the VA's strategic plan's major initiatives to establish a strong VA management infrastructure and integrated operating model. To accomplish this, the FLITE Program has three primary components:**
 - SAM (Strategic Asset Management)
 - Asset and inventory management
 - Real property management
 - IT asset management
 - Work order and project management
 - IFAS (Integrated Financial Accounting System)
 - Enhance VA's ability to meet federal financial management requirements
 - Standardize financial business processes and improve the timeliness and reliability of financial reporting
 - FDW (FLITE Data Warehouse)
 - Financial and asset management reporting and analysis data source by consolidating data from SAM and IFAS
